

## **Overview of Genealogy Research**

**This course is intended to give both beginners and experienced genealogy researchers an overview of the many ways we can work on our own family trees. The instructors are selected from members of OLLI Wilmington's Genealogy instructors and experienced students. The lineup may change slightly if members need to change due to personal plans. Each instructor will lecture about 50-60 minutes leaving time at the end for questions. Handouts will be made available through email.**
