

Course Title: Environmental Issues

April 26, 2024

Instructor: Pam Meitner

Brief Description: This course will be presented hybrid. Some lecturers will present remotely allowing a broader range of speakers. All of the speakers have not committed yet as the fall is far away and the schedule won't be set until summer when the course day and time are confirmed.

Schedule: This will be a 13 week course

Week 1: Chris Williams, Office of Sustainability, UD will explain the university plan.

Week 2; PATrick CARney, Nature Photography from Westmoreland Sanctuary.

Week 3: John Jackson, Stroud Water Company, local water issues

Week 4: other lectures are being contacted and have not yet committed but each lecture is a stand alone event.
